REPLY

In response to the Restriction Requirement of March 21, 2006, applicants elect Group I and claims 1-12 and 14 for further prosecution in this application.

In response to the requirement for an election of species to which the claims will have to be restricted in the event a generic claim is not found to be allowable, applicants elect as the fuel component, mineral oil (claim 9); as the density controlling component, de-hulled rice hulls (claim 2); and as the oxidizer component, an ammonium nitrate (AN) product (claim 7).

Applicants reserve the right to file a divisional application on non-elected claim 13.

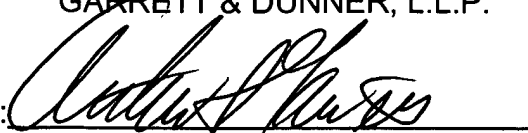

Please grant any extensions of time required to enter this response and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
